MISSION STATEMENT

Our mission is to help users find the best savings on items across different stores locally. Now you can create a shopping list, decide if you want to do your shopping at more than one location, and find the best price on your items all from one user tested, easy to use app. EZList aims to save people time and money by expediting and facilitating the entire grocery shopping experience.

IMPROVEMENTS

- Adding integration with Facebook and Google+ with friends/networks
- Better notifications system (notes/reminders)
- More expandable, global settings preferences
- Implement camera to better recognize handwritten notes or even produce
- Barcode scanner to add single items to lists
